NO THANKS:

- Milk and juice cartons
- Plastic covers and plastic films
- Wet/dirty paper
- Card packaging
- Wrapping paper and ribbon
- Books
- Baking paper, muffin cases, etc.

Plastic

Food & beverage cartons

Food and drink cartons, as well as plastic, should be emptied of contents, but do not need to be rinsed (except yoghurt cartons, which should be rinsed of any residue). Folding the cartons provides more space in the container.

YES PLEASE:

- Plastic bottles (non-deposit)
- Plastic containers
- Plastic trays, tubs and lids
- Plastic bags (without metal film)
- Plastic foil and film + bubble wrap
- CD and DVD covers
- Plastic toys (non-electronic)
- Plastic tableware (not styrofoam)

Food and beverage cartons, e.g.:

- Milk cartons
- Yoghurt cartons, rinsed
- Cartons for drinks, e.g. juice and cocoa
- Cartons for food, e.g. peeled tomatoes

NO THANKS:

- PVC e.g.: Rubber boots, rain clothes, balls, etc.
- Packaging from weedkiller, insecticides, etc.
- Plastic medicine packaging
- Melamine, e.g. Margrethe bowls, etc.
- Plastic with electronics
- Bags with metal film, e.g. crisp bags
- Plastic bottles and containers with the following hazard labels - these must be disposed of as residual waste (empty)

Cardboard

YES PLEASE:

- Small cardboard boxes
- Corrugated cardboard
- Cardboard packaging
- Card packaging
- Shoe boxes
- Cardboard tubes from kitchen and toilet rolls
- Card
- Egg boxes (clean and dry)

NO THANKS:

- Plastic covers and plastic films
- Wet/dirty cardboard
- Books
- Wrapping paper
- Pizza boxes
- Birthday cards with sound
- Paper cups and other plastic-coated cardboard
- Food and beverage cartons
- Polystyrene

Food waste

When you sort your food waste, you should put it in the green bags provided by Hillerød Forsyning.

Tie a tight knot at the top of the bag before placing it in the food waste bin.

Ask the person responsible for waste in your property about bulky waste and where it should be left for collection.

YES PLEASE:

- Fruit & vegetables
- Paper coffee filters and teabags
- Egg shells
- Meat and cold cuts
- Fish and seafood
- Small bones (poultry, pork ribs and lamb)
- Bread, cakes, rice and pasta
- Cheese and dairy products
- Fat and gravy
- Flower bouquets
- Dirty paper towels

NO THANKS:

- Textiles
- Empty packaging incl. biodegradable plastic
- Cotton buds and nappies
- Pizza boxes
- Potted plants and soil
- Ash and cigarette butts
- Hygiene waste, e.g. sanitary pads
- Aluminium foil
- Dead animals
- Cat litter
- Animal bedding
- Garden waste/pot plants
- Napkins
- Baking paper, muffin cases, etc.

Residual waste

YES PLEASE:

- Dirty paper and cardboard
- Napkins
- Nappies and sanitary towels
- Cotton buds
- Vacuum cleaner bags (securely wrapped)
- Ash (securely wrapped)
- Cigarette butts
- Sweepings (securely wrapped)
- Cat litter
- Small pet bedding
- Animal droppings
- Polystyrene
- Bags with metal lining, e.g. crisps and coffee bags

NO THANKS:

- Recyclable waste
- Stones and soil
- Dead animals
- Clothes and textiles
- Hazardous waste
- Bulky waste

Glass

YES PLEASE:

- Glass bottles (non-deposit)
- Food jars
- Glass packaging
- Drinking glasses
- Glass vitamin bottles
- Glass shards from all the above

NO THANKS:

- Porcelain
- Flat glass
- Ceramic/stoneware
- Chemical bottles
- Mirrors
- Light bulbs
- Fireproof glass, e.g. ovenproof dishes
- Medicine bottles

Hazardous waste

Your property has an environmental waste cabinet or an environmental waste container for hazardous waste, and may also have a battery container for used batteries.

Ask the person responsible for waste in your property about how to handle hazardous waste.

Leftover medicines and packaging, as well as syringes, should be taken to a pharmacy.

Illegal fireworks and explosives must be handed over to the police.

YES PLEASE:

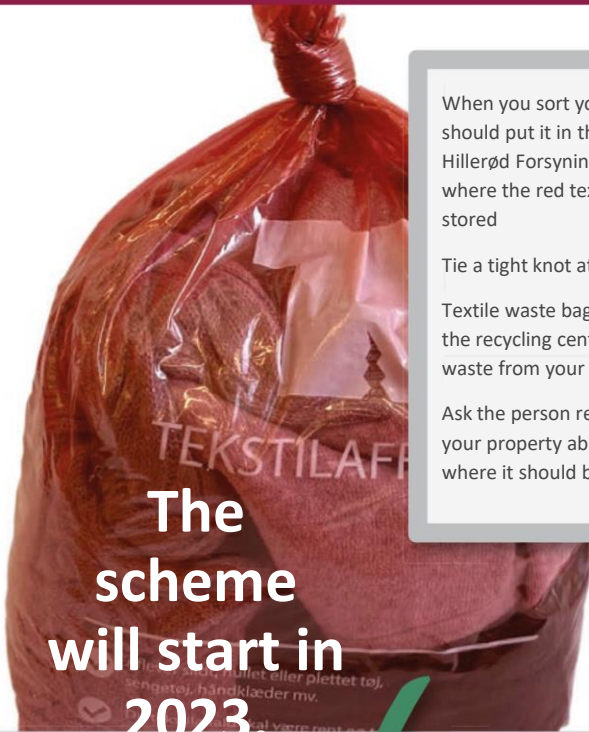

- Leftover paint
- Spray cans
- Thermometers
- Fertiliser
- Descaling agents
- Oil residues
- Light sources (bulbs, LED bulbs, etc.)
- Chemicals (in original packaging)
- Weedkiller from household use
- Poison for vermin
- Printer cartridges
- Nail polish and nail polish remover
- Empty packaging marked with one of the hazard labels "acute toxicity" or "hazardous to health".

NO THANKS:

- Spontaneously combustible rags and liquids
- Fireworks
- Pressurised cylinders
- Ammunition, explosives and weapons
- Syringes and leftover medicines
- Sharp objects such as broken glass and knives

Textile waste

The
scheme
will start in
2023.

When you sort your textile waste, you should put it in the bags provided by Hillerød Forsyning. Ask the waste manager where the red textile waste bags are stored

Tie a tight knot at the top of the bag.

Textile waste bags should be delivered to the recycling centre or collected as bulky waste from your property.

Ask the person responsible for waste in your property about textile waste and where it should be left for collection.

YES PLEASE:

Textile waste in the form of worn-out clothing and textiles that are worn, holey, stained or ruined, e.g.:

- Blouses and trousers
- Underwear and socks
- Sportswear and swimwear
- Cloth nappies (clean)
- Parts and pieces of clothing
- Towels and flannels
- Tea towels and dishcloths
- Tablecloths and bed linen
- Soft toys
- Textile net and rag rugs
- Duvets, pillows, cushions

NO THANKS:

Clothing and textiles that are:

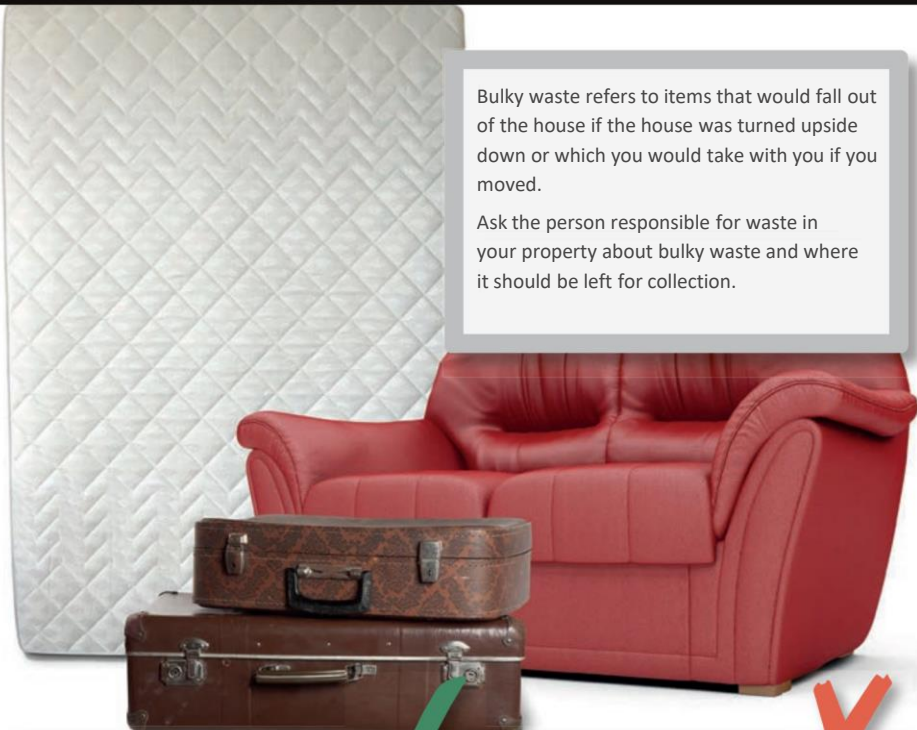

- Recyclable clothing and textiles
- Leather clothing and rainwear
- Wet or mouldy
- Contain leftover food
- Contain chemicals

Bulky waste

Bulky waste refers to items that would fall out of the house if the house was turned upside down or which you would take with you if you moved.

Ask the person responsible for waste in your property about bulky waste and where it should be left for collection.

YES PLEASE:

Household contents, e.g.:

- Furniture
- Garden chairs and cushions
- Rugs
- Paintings
- Electronics e.g. household appliances, computers, printers, etc.
- White goods

NO THANKS:

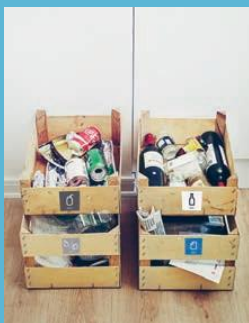

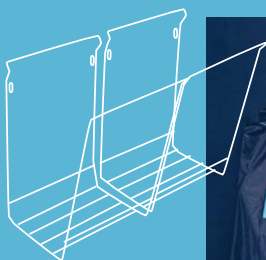

- Construction waste
- Packaging
- Hazardous waste
- Porcelain and ceramics, as well as parasol feet, etc.
- TV and flat screens (take to recycling station)
- Pallets

Sort your waste correctly

In Hillerød, we sort waste so that we can reuse the valuable materials found in the waste. The better you sort your waste, the more we can reuse it to make new products.

Good sorting starts inside

It is therefore a good idea to organise a good indoors sorting solution that matches the needs and routines of the family/household. See suggestions here:
